## PRODUCT DESCRIPTION

The Chip Fire TX3R, powered by a rechargeable 18650 Li-ion battery, is ideal for those looking for a powerful and compact flashlight. It delivers high performance with 1000 lumens of brightness and a range of 230 meters.

- Designed for tactical operations, offering a combination of flood and spotlight with brightness of up to 1000 lm.(Focus System)
- Easy to use: 3-step mode with a transport lock.
- Light modes: high, medium, low, strobe (blinking).
- Extremely durable: hard-anodized aluminum housing with high resistance to water and dust (IP54).
- Powerful 18650 Li-Ion battery, rechargeable via the battery (charging cable not included).

## FOOTNOTES

The information pertaining to scope of delivery, appearance, performance, dimensions and weight corresponds to the information available at the time of publication. In the interest of product development, we reserve the right to change scope of delivery, appearance, design and color without prior notice. Product images may vary from the actual products and may show optional accessories which can be purchased separately. Errors and omissions excepted.

\*) 7 year warranty only if registered, otherwise 2 years. Warranty conditions viewable at <https://ledlenser.com/en/infos-service/warranty/>

1) Measured values according to ANSI/PLATO FL 1 in the respective setting named. If no setting is specifically named, the luminous flux (lumens/lm) and range (meters/

m) values refer to the brightest setting and the burn time (hours/h) values refer to the lowest setting. A boost function (if available) can be used several times, but is only available for a short time at a time. In case the lamp is equipped with colored LED(s), the measured values are given with white light or the white LED. If the lamp has different energy modes, the "energy saving mode" is the basis for the measurement.

2) Calculated value of the capacity in watt-hours (Wh). This applies to the battery(ies) contained in the delivery condition of the respective item or, in the case of lamps with rechargeable battery, to the battery(ies) contained herein in a fully charged condition.
