Tactical Outdoor Set TAC6R

Tactical Outdoor Set TAC6R

PRODUCT DESCRIPTION

Get ready for your next adventure: The TAC6R Tactical Outdoor Set is your lighting must-have for any hunting, fishing or outdoor trip. It includes everything you need, from a compact yet powerful flashlight to smart accessories that keep you ready for any situation. At its core is the TAC6R, a robust, intuitive-to-use and reliable tactical flashlight built for demanding conditions. A remote switch for silent and precise activation, a Picatinny rail mount and our Universal Mounting System for hands-free use of your TAC6R and the color filter set for additional red, green, blue and yellow light complete the handy set. When not in use, everything fits neatly into the high-quality carry case.

- TAC6R: Compact tactical flashlight with multi-mission tactical beam and extensive scope of delivery
- Remote Switch Type H: Switch on your TAC6R silently and precisely to ensure maximum safety
- Picatinny Rail Mount Type A: Mount to attach your TAC6R to Picatinny rails for hands-free use
- Universal Mounting System: Easy-to-assemble system for attaching your TAC6R parallel to poles
- Color Filter Set: Red, green, blue and yellow filters provide the right light for any occasion

FOOTNOTES

The information pertaining to scope of delivery, appearance, performance, dimensions and weight corresponds to the information available at the time of publication. In the interest of product development, we reserve the right to change scope of delivery, appearance, design and color without prior notice. Product images may vary from the actual products and may show optional accessories which can be purchased separately. Errors and omissions excepted.

1) Measured values according to ANSI/PLATO FL 1 in the respective setting named. If no setting is specifically named, the luminous flux (lumens/lm) and range (meters/m) values refer to the brightest setting and the burn time (hours/h) values refer to the lowest setting. A boost function (if available) can be used several times, but is only

available for a short time at a time. In case the lamp is equipped with colored LED(s), the measured values are given with white light or the white LED. If the lamp has different energy modes, the "energy saving mode" is the basis for the measurement.

9) All aluminium components are made of at least 75 % recycled aluminium and may thus vary in surface structure and color.

*) 7 year warranty only if registered, otherwise 2 years. Warranty conditions viewable at <https://ledlenser.com/en/infos-service/warranty/>

10) Applies to the TAC7R and TAC6R.
